It was during my previous role in EDCO where I became fascinated with programming and decided to change my career. In the past year I have completed two software engineering courses at Xccelerate and started an internship at RH-Software. My love for problem solving means that I enjoy the process of web design and I am open to learning new languages and frameworks that any job may require.

Work Experience

Junior Software Engineer Intern – Aug 2020 to Oct 2020
RH-Software Limited, Hong Kong, China
- Worked on the project *Right Hand*, an application that connects clients and handymen in Hong Kong.
- Duties involved: market research into modern UI; wireframe development in Adobe XD; frontend development in React.
- Skills: Adobe XD, HTML, CSS, Sass, JavaScript, Bootstrap, Redis, React, Redux, React Hooks

Executive Assistant – Oct 2014 to Aug 2020
EDCO International Limited, Hong Kong, China
- First assistant to CEO of a large beauty product company.
- Duties involved: organising meetings with clients and suppliers; attending Hong Kong and Canton trade fairs; conducting factory inspections; setting up a Global Source platform; processing product samples.

Education

Full-Stack Software Engineering – Mar 2020 to Aug 2020
Xccelerate, Hong Kong, China
